Conclusions of the Forum
- Paola Migliorini, President of Agroecology Europe
- María Carrascosa, Local Organising Committee
As allies in the movement for food sovereignty, agroecology and social justice, Agroecology Europe is proud to collaborate with COATI, the Collective for the Self-Management of Interpretation Technologies, which will coordinate the team of volunteer Interpreters, as well as provide the Simultaneous Interpretation Technology.

Agroecology Europe

Agroecology Europe is an international non-profit organization which aims to analyse, design, develop and promote the transition towards agroecology-based farming and food systems in Europe and throughout the world. It intends to place agroecology high on the European agenda of sustainable development of farming and food systems. It intends to foster interactions between actors in science, practice and social movements, by facilitating knowledge sharing and action.

Red de Ciudades por la Agroecología

It is an association formed by local entities of the Spanish state. Its aim is to generate a dynamic between local entities in order to build local, environmentally friendly, sustainable, inclusive, resilient, safe and diversified food systems that ensure healthy, sustainable and accessible food for the whole population, and that promote local employment, in line with the perspectives of agroecology and food sovereignty.
